## Desk of managing Director

The main purpose of education is to lead man towards life growth and self realisation, by awaking and unfolding his inherent latent potentialities and adopting them to fulfilling the needs of society. The prime thing in a man's life is his tendency towards unification or the in-dwelling attachment and urge of his being. A man's becoming is conditioned by the object where his active attachment is set. Every man has an inherent yearning for perfection, and this thirst for perfection can be satisfied if his attachment is centred in an Ideal Symbolising perfection and Holy Crown School is Continuously Creating teaching learning environment for proper all-round development of it's children.

Holy Crown School is committed to unfurl the inner qualities of the children by nourishing & nurturing to inculcate the value education as discipline, respect, co-operative, brotherhood relation, personality development etc. The institution is determined to explore the opportunities & innate potentials of its students through nourishing them in Continuous & Comprehensive Evaluation (CCE) method to edifice a sub-structure from where they can think globally & work locally.
